Description

The Cole Parmer Masterflex L/S is a Digital Drive Peristaltic Pump with digital control and a wide speed range. This Cole Parmer Pump has a graphical interface that allows users to select and program four operating modes: continuous run, timed dispense, volume dispense, and copy dispense, and with remote capabilities, this digital drive is an ideal choice for automated process applications. The dispense interval also allows users to set a delay, and set on-off cycles, and features an anti-drip functionality to ensure dispensing accuracy.

The Pump runs on standard 120V Power and can be used with several different pump heads.
