Description

The Thermo Scientific Cytospin 4 Cytocentrifuge brings you economical thin-layer preparations in a durable, reliable compact footprint. This cytocentrifuge can process up to 12 specimens at a time and is an ideal choice for cell preparation from any liquid matrix, particularly hypocellular fluids such as urines and spinal fluids. This cytocentrifuge is spill-resistant, can be disinfected easily, and is IEC 61010 compliant meeting the strict centrifuge safety standards. This unit is lightly used.
