Description

Thermo Scientific Fiberlite F12-6x500 LEX is a high-performance fixed-angle carbon fiber rotor designed for Thermo Scientific Sorvall LYNX 4000 and 6000 superspeed centrifuges. It excels in large-volume pelleting, bacterial/yeast harvesting, and protein precipitation with lightweight construction for faster acceleration/deceleration and reduced wear.

Key Features:
Capacity: 6 x 500 mL bottles (total 3 L).
Performance: Max speed 12,000 rpm; max RCF 24,471–24,515 × g; K-factor ~1,388–2,305; 20° fixed angle.
Fiberlite Technology: Lightweight carbon fiber composite construction (corrosion-resistant, no metal fatigue) for higher speeds, longer life, and easier handling than traditional rotors.
Auto-Lock & Safety: Auto-Lock rotor exchange system for quick, secure installation; Bioseal lid option for aerosol containment.
Convenience: Speed handle for easy lid tightening; Auto-ID for instant rotor recognition and automatic parameter setting.

This rotor is ideal for high-throughput bioprocessing and large-scale sample preparation in research and production labs.

Comes with our 90-day warranty.

Biotech Equipment Sales, Inc.: based in South San Francisco, the Biotech capital of the world, since 2009. We are dedicated to bringing high-quality pre-owned laboratory instrumentation to our scientific community.
