Description

Agilent 1220 Series Infinity II HPLC System G4290C with SIM Cooling Module & DAD

The 1220 Infinity II LC is an integrated system for routine HPLC analysis in analytical and QA/QC labs. Based on the proven technology of the InfinityLab LC Series, the system's high quality and performance help you achieve maximum return on investment and lowest cost of ownership from day one. Almost any InfinityLab LC Series module can be connected to give you maximum flexibility. Comes w/PC and OpenLab software. (Buyer must buy license from Agilent.)

System features built-in:

- Gradient pump
- Autosampler
- Column oven
- DAD detector
- SIM Cooling Module

Comes with our 90-day warranty.
