Description

The Hygiena SystemSURE Plus is a compact, handheld ATP luminometer used for rapid hygiene verification in food safety, healthcare, water treatment, and sanitation programs. Used with Hygiena ATP swabs, the unit provides quick quantitative pass/fail results in seconds, helping verify surface cleanliness and validate sanitation procedures in the field or lab.

Specifications

Measurement Method: ATP bioluminescence with solid-state photodiode detection
Display: Backlit LCD screen with simple menu-driven navigation
Memory Storage: Up to 250 user locations / test plans (model dependent)
Calibration: Internal calibration – no external calibration required
Results Time: < 15 seconds per test
Data Interface: USB connection for data export and software integration
Power: AA alkaline or rechargeable batteries (typically >8 hours of use per set)
Compatible Swabs: UltraSnap, SuperSnap, AquaSnap, and other Hygiena ATP tests
Size & Weight: Small, lightweight handheld unit designed for field portability

Comes with our 90-day warranty.
