Description

This Thermo Model 1345 4-foot Type A2 biosafety cabinet w/auto stand is in great condition and was manufactured in 2011. There are multiples available if you need to outfit the entire lab. Comes w/our 90-day warranty for the hood (HEPA filters guaranteed to pass initial certification or BES will pay for 50% of replacement).

Perform daily applications safely and efficiently with Thermo Scientific™ 1300 Series Class II, Type A2 Biological Safety Cabinet Packages, which include: Cabinet; manual, automatic adjustable height stand; & factory installed UV light. These safety cabinets deliver exceptional design and technology advancements such as superior protection with proprietary airflow design, exceptional ergonomics for a safe and comfortable environment, and outstanding energy efficiency for operational cost savings.

Benefits

- Save money over the entire life of the cabinet with energy efficient design
- Reduce operating costs up to 75% over traditional biological safety cabinets with AC motors
- Increase comfort and encourage safe working habits with the sloped front, bright workspace, and low noise level
- Maximize safety through our innovative Thermo Scientific™ SmartFlow™ design with Digital Airflow Verification
- Organize the interior with confidence using SmartPort, a clean and easy way to organize with confidence due to the negative pressure dual-side wall
