Description

TOMY SX-700 (220V) top-loading autoclave is a compact, floor-standing vertical laboratory sterilizer designed for efficient steam sterilization of

media, glassware, instruments, and laboratory waste. Its top-loading design maximizes chamber capacity while minimizing floor space, making it suitable for shared lab or research use.

Key Features / Specifications
Chamber capacity — Effective volume approximately 69 L (internal volume ~79 L); chamber dimensions roughly Ø360–370 × 675–774 mm; constructed of SUS304 stainless steel.
Operating temperatures — Sterilizing mode 105–135 °C (corresponding to ~0.019–0.212 MPa); heating mode 45–104 °C; warming mode 45–95 °C. Maximum operating pressure 0.25 MPa.
Power requirements (220V model) — Single-phase AC 220–240 V (230 V recommended), ~13–15 A, 3.0 kW electric heater; typically uses a NEMA 6-15P-type plug.
User-friendly design — Foot-pedal-assisted top-open lid for easy one-handed operation; dual-fan cooling system that substantially shortens cooling times; digital temperature display with analog pressure gauge; includes stainless-steel basket.
Safety features — Water-level sensor, current-leakage breaker, lid interlock, over-heat and over-pressure prevention, open temperature-sensor detection, and safety valve.
External dimensions — 470 × 528 × 1003–1051 mm (W × D × H, approximately, excluding some protrusions) and weight is about 72 kg.

Comes with our 90-day warranty.

Biotech Equipment Sales, Inc.: based in South San Francisco, the Biotech capital of the world, since 2009. We are dedicated to bringing high-quality pre-owned laboratory instrumentation to our scientific community.
