Description

The Applied Biosystems Veriti Thermal Cycler set a new standard for innovation when this thermocycler launched in 2007. It was the first thermal cycler to employ an LCD touchscreen interface, multiple temperature zone block, and web-enabled remote-control software. Building on these innovations, the VeritiPro Thermal Cycler upgrade features the latest block technology and connectivity options. These advancements provide higher ramp rates, quieter runs, and more intuitive VeriFlex temperature optimization setup while continuing to offer the same high-end performance.

The VeritiPro Thermal Cycler comes with 96-well fixed block with 6 VeriFlex zones for user-independent temperature control.

Comes with our 90-day warranty.
